

AUDIO & VIDEO

Web Design Accessibility

VIDEO PRODUCTION

- Avoid flashing imagery
- Consider making audio descriptions while shooting the video
- When editing your video, if you must use text, make it sure it is large and has a high contrast ratio

PLAYER

- Use native tags where possible
 - `<video>`
 - `<audio>`
- Do not autoplay
- Make sure the video controls are accessible

What is metacognitive therapy

13 June 2017

Metacognitive therapy (MCT) is a relatively new form of therapy that looks at thinking. It's super useful. But what exactly does it all mean? In this episode, I explain the basics of MCT and how it can be applicable to reducing your anxiety.

Transcription

Hey, it's Chris, and welcome to the Norfolk Anxiety Podcast. Hope you're

TRANSCRIPTS

- Always provide a transcript where possible
- Many able-bodied people prefer to read a transcript
 - Browsing on public transport, for example
- Transcript services
 - Fiverr, Rev
- Makes your content more searchable!

CAPTIONS

- Captions are a description of what is happening and what is being said
 - This is different from subtitles, which typically refers to a foreign language transition
 - And does not include descriptions
- Ways to add captions
 - Tools like Subs Factory
 - Caption services like Rev
 - Upload to Youtube and edit
