ALT ATTRIBUTES

Join our newsletter

Blank alt attributes should be used when the image is purely for display and does not form part of the content.

Request a callback

In this example, the icons provide no additional meaning than the text, so we would be repeating ourselves.

The logo for Gig1 Fibre is displayed on a dark background. The word 'Gig1' is in a large, bold, sans-serif font, with 'Gig' in blue and '1' in purple. The word 'Fibre' is in a smaller, pink, sans-serif font. The background features abstract, flowing, colorful lines in shades of blue, purple, and red.

Grab life by the gigabits – Gig1 is now in Southampton

Meet Gig1 Fibre Broadband – our next-level, new-generation, stuff-of-fiction broadband, serving up speeds that'll rock your world (and your gadgets). Now in Southampton and coming to other cities soon.

Download speed averaging 1 104Mbps – the UK's

TEXT AND IMAGES

- Avoid using text inside images where possible
 - Screen readers cannot read it
 - Accessibility tools that modify the text style (i.e. contrast) cannot work with it
- If you must use it, make sure it conforms to colour contrast standards
 - 3:1 for AA compliance
